Objective

B.Tech Computer Science (AI & ML) student with a strong interest in Machine Learning, Generative AI, and Software Development. Experienced in building AI-powered applications through internships, projects, and industry programs. Skilled in Python, SQL, and problem-solving, with a passion for developing innovative solutions using emerging technologies.

Experience

❑ [VISWAM.AI](#) | [Meta](#) | [Swecha Telangana](#) | [IIIT Hyderabad](#) (Summer of AI – Tech Lead)

- Led and mentored teams in AI-driven project development.
- Contributed to NLP corpus collection for regional language datasets.
- Assisted in AI model development, evaluation, and data preparation.
- Collaborated with peers and mentors on real-world AI solutions.

❑ [CodSoft](#) – Python Programming Intern

- Developed Python applications implementing core programming concepts.
- Applied object-oriented programming and debugging techniques.
- Strengthened analytical thinking and problem-solving abilities through hands-on projects.

❑ 1M1B (1 Million for 1 Billion) – Green Intern

- Worked on sustainability-focused solutions and participated in mentor sessions on clean energy and green skills
- Developed the **Smart Solar Micro Hub** along with teammate **Likitha Nadipineni** — a smart solar analysis platform that helps users estimate energy consumption, calculate solar requirements, analyse cost savings, and understand environmental impact
- Focused on solving real-world energy accessibility challenges through practical and user-friendly technology solutions.

Education

Bachelor of Technology (B.Tech) – Computer Science & Engineering
St. Peter's Engineering College
CGPA: 8.8/10

2024 – Present

Intermediate (Class XII) – Telangana State Board
Score: 94%

2024

Secondary School Education (Class X) – Telangana State Board
Score: 90.25%

2022

Skills

- **Programming Languages:** Python, Java, C, SQL
- **AI & Machine Learning:** Machine Learning, Generative AI, Large Language Models (LLMs), Prompt Engineering
- **Frameworks & Tools:** Streamlit, Git, GitHub
- **Databases:** MySQL
- **Data Analytics:** Power BI, Data Visualization
- **Core Subjects:** Data Structures & Algorithms, DBMS, Operating Systems, OOP

Projects

Smart Solar Micro Hub | <https://smart-solar-micro-app-4332rilsuixyzzzzz.streamlit.app/>

Python, Streamlit, Plotly, HTML/CSS

- Developed a solar analysis platform using Python and Streamlit.
- Implemented energy consumption estimation and solar panel requirement calculations.
- Built cost savings and environmental impact analysis modules.
- Integrated interactive visualizations using Plotly.

Ojas AI |

- Flutter, Dart, Sensors Plus, Geolocator
 - Developed an AI-powered safety monitoring application using Flutter.
 - Implemented live GPS tracking and emergency alert features.
 - Integrated sensor-based monitoring and automated workflows.
 - Designed a responsive UI for real-time safety management.

Certifications

- Oracle Cloud Infrastructure 2025 AI Foundations Associate
- Career Essentials in Generative AI by Microsoft & LinkedIn
- Google Cloud – Introduction to LLMs
- Google Cloud – Gen AI Beyond the Chatbot
- JPMorgan Chase Software Engineering Job Simulation
- Tata GenAI Powered Data Analytics Job Simulation
- TCS iON Career Edge – IT Primer
